THE FUEL PROJECT:

Know Your Enemy
Lesson 6
French Revolution

• Official story – Lack of food and poor economy.

• Evidence suggests – Revolution engineered by Illuminated Freemasons to overthrow monarchy, abolish Christianity, and establish a utopian science republic where truth is manipulated for power and control (“a Masonic ‘scientific dictatorship’”).

• God was dethroned and the ‘goddess of Reason’ was enthroned – man became God, the goal of godless evolution.
French Revolution

• People became expendable for the sake of a perfect utopian society – the goal was to kill 15 million useless eaters, but the Reign of Terror achieved 300,000 dead before it ended.

• The French Revolution laid groundwork for future socialist, communist, and fascist ideologies – including the ideas of Marx and Engels.

• The goddess of Reason was transplanted to America in the form of the Statue of Liberty by the Freemason Bartholdi.
The American Revolution

- Freemasonry was involved with both Revolutions, with many of the same players – Franklin (Masonic Grand Master), Lafayette, Washington, and others were Freemasons.
- Washington took oath as president on a ‘Masonic Bible.’
- Boston Tea Party was a Masonic event.
- Were the Founding Fathers Christian? – Read our newsletter ‘AMERICA’S CHRISTIAN HISTORY?’ And decide for yourself.
**The Hidden Hand**

- Hiding the hand in the coat is a Masonic gesture of the Royal Arch (13th degree). Many famous people such as Washington, Karl Marx, and Lafayette were photographed or painted doing it – as a signal to other brothers that our goals are the same as a hidden hand guiding the course of history.

- Nothing will ever change if all our leaders belong to the same secret societies – Skull & Bones, Freemasonry, or Council on Foreign Relations.
The Capitol

- The Capitol, monuments, and the layout of Washington DC all point to Masonic influence.
- The goddess of Reason stands also on top of the Capitol building.
- Inside the Capitol dome is a painting of Washington sitting among a pantheon of pagan gods – He is depicted as becoming a god (Apotheosis) by the Freemason painter Brumidi.
- An Owl is depicted in the layout of the Capitol building and grounds.
Lilith

• Lilith – a powerful female demon; mythically considered to be the first wife of Adam by the Jewish Kabbalah; she wanted to dominate Adam.

• According to this myth she left Adam and accepted demon lovers – becoming the mother of demons – and becoming a succubus, a female demon attacking people sexually at night.

• Represented as an owl by occultists, Lilith is translated as “screech owl” in KJV (Isaiah 34:14) – Satanists revere her.
Lilith

- Lilith is now considered a noble goddess, and the figurehead of the feminist movement because of her independence and non-submissiveness to men.
- She is the demon behind all kinds of sexual deviation and abortion.
- She is also associated with the modern glamorization of vampires.
Bohemian Grove

- A club for political and intellectuals known as Bohemian Club or Grove founded north of San Francisco in 1872.
- Every midsummer, around 1500 of the most powerful politicians and businessmen from within and without the United States attend.
- This club appears to act as a doorway to inner circle of the elite – and those accepted are fast-tracked in their careers.
- Before a giant owl image the participants attend a druid pagan ritual.
Rothchild Era Part 1

• Usury – to understand the debt money system which the world presently operates under as opposed to real money (gold and silver) see our newsletter The Moneychangers -1.

• Under the debt money system there is never enough money to pay off the national debt, no matter how much money the Federal Reserve prints.

• Eventually the bank will own everything – it is theft by the elite.
Rothchild Era Part 2

• The Central bank (the wealthy elite) – is the shadow government controlling the world through usury.

• Wars are planned and fought at the instigation of the money elite for their purposes of wealth and world domination.

• Ideally, a nation can function as its own bank (creating its own money), eliminating the need for interest payments to private banks, eliminating its own national debt – doing so will likely bring wars.
